PROFESSIONAL EXPERIENCE

Mutex Tech Pvt. Ltd., Kathmandu — Flutter Developer

May 2023 – January 2025

I worked as a primary flutter developer. I handled national as well as international clients for the company.

Responsibilities:

- Developed Android and iOS mobile applications using Flutter and Dart.
- Worked with international clients, including U.S.-based clients, and local businesses.
- Gathered and clarified technical requirements and collaborated with cross-functional teams to deliver projects.
- Integrated APIs and implemented application features, authentication and mobile functionality.
- Improved application performance through code optimization and caching mechanisms using GetX.
- Prepared and published applications to the Apple App Store and Google Play Store while ensuring platform compliance.
- Debugged application issues and provided technical support and troubleshooting for clients.
- Mentored junior developers on state management, UI/UX practices and development best practices.
- Contributed to successful project delivery while maintaining client communication and technical quality.

Selected Projects: Wholistic Minds, Fullmoon Mobile App, My Hotel and Homes

Nipuna Prabhidik Sewa, Pokhara — Flutter Developer

February 2021- March 2023

Worked as a mid-level Flutter developer across multiple client projects for international and local businesses.

Postman

Freelancer — Flutter Developer

March 2023 – May 2023 & January 2025 - ongoing

I worked as a freelancer, primarily for flutter projects. I am available at UpWork, SnapHunt and Fiverr.

Responsibilities:

- Gather project requirements and clarify deliverables with clients.
- Plan technical approaches, packages and plugins for project requirements.
- Design and implement mobile application interfaces.
- Develop, debug and optimize Flutter applications.
- Integrate APIs and third-party services.
- Perform testing, error handling and validation.
- Manage project deliverables and communicate progress with clients.

Utsaha Advert, Pokhara — Internship

January 2020 - September 2020

I worked as a junior front-end developer for this company. Vue.js was my primary focus for the time there.

Responsibilities:

- Developed frontend components using Vue.js.
- Worked with team members to research and develop project ideas.
- Designed UI/UX components for new project concepts.
- Learned and applied frontend development practices in a team environment.

Infomax Pvt. Ltd., Pokhara — Internship

July 2019 - October 2019

I worked as a computer mentor and analyst for a company.

Responsibilities:

- Supported beginner-level computer science and software classes.
- Troubleshot computer and laptop hardware and software issues.
- Configured Windows/Linux operating systems and workstation environments.
- Researched software, operating systems and computer hardware.
- Gained exposure to React.js and native Android development.
- Assisted with basic technical guidance and troubleshooting.

SELECTED PROJECTS
