Flutter/Mobile Application Developer with 4+ years of experience building Android and iOS apps using Flutter (Dart). Strong background in app development, debugging, performance optimization, publishing, and client collaboration. Based in Götenborg and currently learning Swedish.

WORK EXPERIENCE

Lead Flutter Developer

Mutex Tech Pvt. Ltd., Kathmandu — Flutter Developer

May 2023 – January 2025

- Developed Android and iOS mobile applications using Flutter and Dart.
- Worked with international clients, including U.S.-based clients, and local businesses.
- Gathered and clarified technical requirements and collaborated with cross-functional teams to deliver projects.
- Integrated APIs and implemented application features, authentication and mobile functionality.
- Improved application performance through code optimization and caching mechanisms using GetX.
- Prepared and published applications to the Apple App Store and Google Play Store while ensuring platform compliance.
- Debugged application issues and provided technical support and troubleshooting for clients.
- Mentored junior developers on state management, UI/UX practices and development best practices.
- Contributed to successful project delivery while maintaining client communication and technical quality.

Selected Projects: Wholistic Minds, Fullmoon Mobile App, My Hotel and Homes

Mid-level Flutter Developer

Nipuna Prabhidik Sewa, Pokhara

February 2021- March 2023

- Flutter developer for client companies based in Dubai, as well as local clients for the company.
- Developed and maintained mobile applications using Flutter.
- Gathered client requirements and prepared technical documentation for development teams.
- Implemented new features, modified existing software and optimized existing codebases.
- Performed debugging, software testing and validation.

- Researched framework and environment upgrades and evaluated suitable technical solutions.
- Implemented UI/UX designs and mobile application functionality.
- Worked with client companies based in Dubai as well as local clients.
- Guided junior developers and supervised development work within the team.
- Validated requirements, deliverables and existing application functionality.
