ABIK VAIDHYA

Mobile Application Developer | Göteborg, Sweden | +46-739-810-135 | abikvaidhya@gmail.com | abikvaidhya.com.np | linkedin.com/in/abik-vaidhya

Mobile application developer with 4 years of experience building cross-platform apps using Flutter and Kotlin. Strong background in UI development, API integration, state management, and delivering reliable mobile experiences.

Strategic Highlight and Impacts

- Shipped all of previously stalled Flutter projects at Mutex Tech — taking projects that had stalled indefinitely to successfully publishing them on the App Store and Play Store. Optimized application performance through targeted work on API call efficiency and local caching strategies, directly improving load times and responsiveness across multiple production apps.
- Improved cross-functional collaboration and delivery velocity at Mutex by working closely with designers, QA, and product stakeholders — contributing to the promotion from Flutter Developer to Lead Flutter Developer.
- Drove a 60% increase in project deliverables at Nipuna Prabhidik Sewa across a portfolio of client apps spanning Dubai and local Nepal-based companies, while simultaneously doubling output on documentation and project-management tasks. Resolved 90% of software compatibility issues in existing code bases at NPS, stabilizing applications across client environments and reducing recurring support overhead.
- Practical familiarity with AOSP concepts, AOSP build system, AI-Assisted Development using GitHub Copilot and Claude Code, AI/ML Integration & APIs like Google Gemini API and REST AI Services (local open-source model).

Professional Experience

Lead Flutter Developer | May 2023 – Jan 2025

Mutex Tech Pvt. Ltd., Kathmandu

- Built Android and iOS applications with Flutter and Dart for national and international clients, Integrated APIs, authentication, and mobile features across client projects, improved application performance through code optimization and caching mechanisms using GetX, provided technical support, and mentored junior developers on state management and UI/UX practices.
- Contributed to exploratory work on AOSP build flows and platform configuration to better understand how embedded Android images and customization affect application compatibility and runtime behavior.
- Published apps to the Apple App Store and Google Play Store while maintaining platform compliance.

Mid-level Flutter Developer | Feb 2021- March 2023

Nipuna Prabhidik Sewa, Pokhara

- Gathered requirements, prepared technical documentation, developed/maintained mobile applications for client companies based in Dubai and local clients, implemented new features, modified existing code bases, and optimized existing applications.
- Debugging, error handling, software testing, and validation.
- Guided junior developers and supervised development work within the team.

Technical Stack

Languages and Frameworks: Flutter(Dart), Kotlin, Jetpack Compose, C++, TensorFlow Lite, GetX, BLoC, Riverpod
Backend and local storage: REST APIs, JSON, Firebase, Supabase, Hive, Flutter Secure Storage, SQLite
Automation CD/CI ad tools: GitHub Actions, Fastlane, Git/GitHub/GitLab, Figma, Postman, Jira, Android Studio
Quality Testing: Unit Testing, Integration Testing, UI Testing

Past Experiences

Flutter Developer, Freelance
React Intern, Utsaha Advert Pvt. Ltd.

Project Highlight

Wholistic Minds

Available in App Store & Play Store | For Mutex Tech
Medical app that links doctors with their patients to help track their progress and health conditions.

Pokhara Food Delivery

Available in App Store & Play Store | For Nipuna Prabidhik Sewa
Food Delivery project operating in Pokhara, Nepal. I was a part of the flutter development team.

Pocket HQ

Available in Github | Project Showcase
A simple personal companion app. Log trips, track screen time, take notes, view trip history, and track your habits.

Vehicle Companion App

Available in Github | Project Showcase
A practical companion app for car owners.

Flutter + Native Hybrid App

Available in Github | Project Showcase
A portfolio app that combines a Flutter UI (GetX) with native Kotlin features.

Hotel Night Trails

Available in Github | Project Showcase
A single-page Flutter Web site for a Hotel Night Trails.

Education

International Master in Business Administration — Herald International College, Kathmandu
Bachelors in Information Technology — Informatics College, Pokhara
